

Breeders List Rotation

The below motion was voted on and officially passed by the current Breeders List members. Please implement the new rotating breeder's list process as soon as it is convenient for you.

Rotating Breeders List - GPCA Website

Establish a rotating breeder's list, thereby allowing every breeder/Kennel on the list to have the opportunity to rotate from first to last continuously throughout the year. Using the alphabetical order currently being used on the breeder's list, the webmaster will rotate the last breeder/kennel on the list to the top position for a period of two weeks and then that breeders/kennel will move to second position and then down the list in each descending position for a period of two weeks. The kennel on the bottom every two weeks will be moved up to the first position and so on and so forth. In that way every kennel will have the opportunity to rotate through all of the positions, rather than hold a permanent alphabetical position on the list. The rotation will be continuous throughout the year.

Note on New Breeder List Members. The list will remain alphabetical and new members to the list will be inserted where they fall alphabetically.
